Sage 100cloud Entry of Decentralized fund

Simplify the management of your point of sale with a collection solution

June 2020

Trading companies, commercial warehouses and multiple branches, Sage 100cloud Decentralized Cash Entry helps you optimize management of your boxes.

Simplify your business

You simplify your activity, sales (cash-payment, tickets, change) to tasks administrative (Z of cash, promotions, etc.), all by controlling your activity more finely.

Automate the management of your point of sale

Sage 100cloud Decentralized Cash Entry is natively integrated with Sage 100cloud Management Commercial. Thus, you find all the articles and services (sizes and colors, serial numbers, etc.), and all the advanced pricing policy (codes promotions, exceptional rates, cascading discounts, etc.).

Improve the efficiency of your salespeople

With Sage 100cloud Decentralized Cash Entry, it only takes a few seconds to enter a ticket and give change. Many keys

programs allow direct access to common functions: printing the ticket, entering the regulations, etc. In addition, the application is compatible with barcode readers, cash drawers, etc., which saves you time.

Secure your data for more privacy

You simply centralize the data between the different cash registers and you control the store sales.

Use a secure and certified checkout system

You are in compliance with the obligation, as of from 1st January 2018, for merchants and professionals subject to VAT to record the payments from their customers via cash register software certified. In case of control, you do not incur any risk.

Take advantage of a subscription offer tailored to you

The subscription offered for this solution gives access to this software and benefits from updates. This subscription is tacitly renewed at the end of 12 months.

You can also opt for the services adapted to your needs:

- Enjoy training benefits: unlimited e-learning courses included or discounts on training within from your company or remotely
- Our Support teams can be contacted directly by chat to provide you with tips and advice.
